---

## SKILLS

**Frontend development** | ReactJS, Redux, JavaScript, HTML5, CSS, Bootstrap.

**Backend development** | JavaScript, NodeJS, Express, MongoDB, Firebase.

**Soft Skills** | Team player, Creativity, Time management.

## EXPERIENCE

### Humanoid Systems, Bangalore— *Front-end developer*

October 2023- March 2024

- I design and develop intuitive and visually appealing web interfaces using HTML, CSS, and ReactJS.
- With a focus on user experience and responsiveness, I collaborate closely with cross-functional teams to translate design concepts into functional code.

### Humanoid Systems, Bangalore— *Front-end developer Intern*

July 2023 - October 2023

- Collaborated with senior developers to create responsive and user-friendly web applications. I contributed to coding tasks using HTML, CSS, and reactJS
- gained hands-on experience in implementing design mockups and wireframes.

## PROJECTS

### Open Source Informative website for a video game (called VALORANT) — MERN | [GitHub repo](#)

- This Open Source Website aims to create a comprehensive website
- This website will serve as a central hub for players to access game-related information, guides, and other resources.

### Brochure website for a game company called RIOT Games — React Js | [GitHub repo](#)

- The website will showcase the games developed by RIOT Games, providing information on the game mechanics, gameplay, and storyline.
